

# Connecting to Wi-Fi

Most devices can be connected with just a few quick steps. For some common devices, we've provided complete beginning-to-end instructions below. Follow the guide that matches your device to make sure it connects smoothly to the campus network.

## Computers

### Apple Mac (macOS)

#### Apple Mac

- Go to **Wi-Fi** settings
- Move your mouse over **CommonwealthU** and click **Connect**
- Leave **Identity** set to **None**
- Log in using your **CU account**
- If you are prompted to verify a certificate, confirm it is for the server **commonwealthu.edu** and click **Continue**
- Enter your computer password to store the certificate. If you skip this step, you will be prompted to verify the certificate next time you connect.

### Windows

#### Windows 11

- Click the **Start** button
- Navigate to **Settings > Network & Internet > Wi-Fi**
- Expand **Show available networks**
- Select **CommonwealthU**
- Check **Connect automatically**
- Click **Connect**
- Log in using your **CU account**
- Click **OK**
- If you are prompted to verify a certificate, confirm it is for the server **commonwealthu.edu** and click **Connect**

## Phones and Tablets

### Apple iPhone/iPad (iOS)

## Apple iPhone/iPad (iOS)

- Go to **Wi-Fi** settings
- Tap **CommonwealthU**
- Log in using your **CU account**
- Tap the **checkmark**
- If you are prompted to verify a certificate, confirm it is for the server **commonwealthu.edu** and tap **Trust**

## Google Pixel (Android)

### Google Pixel (Android)

- Pull down the notification area
- Long press **Internet**
- Tap **CommonwealthU**
- Configure as follows:
  - EAP method: **PEAP**
  - Phase 2 authentication: **MSCHAPv2**
  - CA certificate: **Use system certificates**
  - Domain: **commonwealthu.edu**
  - Identity: your **CU username**
  - Password: your **CU password**
- Tap **Connect**

## Samsung Galaxy (Android)

### Samsung Galaxy (Android)

#### Registering your device

- Pull down the notification area
- Long press **Wi-Fi**
- Tap **Details**
- Tap **CommonwealthU**
- Configured as follows:
  - EAP method: **PEAP**
  - Phase 2 authentication: **MSCHAPv2**
  - CA certificate: **Use system certificates**
  - Domain: **commonwealthu.edu**
  - Identity: your **CU username**
  - Password: your **CU password**

- Tap **Connect**

## Other Devices

Some personal devices do not support username/password wireless authentication and should be registered for **CU Registered** or **CU Registered Open** instead. More information about this process is available in the [Network Registration](#) section
